52860	
53086	
52738	TA+USBA

Reason for Change

- | | | |
|--|-------------------------------------|--|
| <input type="checkbox"/> Design | <input type="checkbox"/> Processing | <input type="checkbox"/> Logistics |
| <input type="checkbox"/> Quality/Reliability | <input type="checkbox"/> Material | <input checked="" type="checkbox"/> Firmware |

Since the launch of the above product the flash chip market has changed. Manufactures disappeared other appeared new on the market. Some flash types aren't produced any more.

Therefore Stollmann had to release a new bootloader that covers the changed requirements and supports more flash types.

Change Details

For a detailed description of the changes see attached document
Deltasheet_BOOTLOADER_ISDN_TA_V1xx_to_V3xx_r01.pdf

Identification Method to Distinguish Change

The new bootloader has the Version V3.00.

The bootloader version can be requested by issuing command "ati77".

Date implemented / First Ship Date

Estimated implementation date: April 2010

If you require data of samples to qualify this change, please contact Stollmann.

If you have any questions concerning this change, please contact Stollmann.

Customer Impact of Change and Recommended Action:

Stollmann anticipates no change to customer platforms designed to Stollmann guidelines.

Stollmann will deem this change accepted unless specific conditions of acceptance are provided in writing within 20 days from the date of this notice. We appreciate your understanding and cooperation. If you have any concern, please let us know
